

# Using the GSA Schedule to Do Business with LimnoTech

*LimnoTech's GSA Schedule Contract makes it easy for federal agencies to contract with us. Specifics about our contract are provided below. Please contact us directly for more information.*

**GSA Contract No: GS-10F-150BA**

## Why use GSA?

- Provides direct access to LimnoTech.
- Meets requirements for full and open competition and analysis of fair and reasonable pricing.
- Negotiated rates represent best value to the government.
- Quick turn-around on contracting: GSA Services can be acquired in under 30 days.
- Minimal contractual costs—rates include a 0.75% GSA Fee.

## Using GSA Schedule Contract:

1. Identify and talk to the GSA Contracting Officer for your agency regarding setting up the Request for Quotation.
2. Prepare a statement of work that includes a scope, schedule and deliverables.
3. Send Request for Quotation bid package to selected contractors (minimum of three).
4. Evaluate bids.
5. Choose a contractor and begin work!

## LimnoTech Special Item Number Certification Areas and Selected Services

LimnoTech offers services under three GSA Special Item Numbers. Our areas of specialization within these areas include the following:

### 899-1 - Environmental Consulting Services

- Clean Water Act Compliance
- Green Infrastructure/Low-Impact Development
